

## **Sparks - The Children's Medical Research Charity**

Founded by sports personalities grateful for their own good health, SPARKS' mission is to deliver medical research that has a practical and positive impact, giving every child the chance for a winning future.

Our aim is for all babies to be born healthy and stay healthy. 1 in 30 children will be born with a condition which may affect them for life. Our goal is to reduce this statistic by funding vital medical research into different areas affecting babies and children.

SPARKS does this by fundraising through fun sporting and social events, through the efforts of dedicated individuals and the support of companies throughout the UK. However, in spite of all our efforts, there are always more worthy projects needing SPARKS help than there is money. That's why the support of yourself or your organisation can make such a difference.

Visit **[www.sparks.org.uk](http://www.sparks.org.uk)** for more information or to see how you can help.

**Thank you!**
